## EXPERIENCE

### IBM | FRONTEND DEVELOPER

May 2020 – Aug 2021 | Markham, ON

- Worked on the governance, risk, and compliance framework within the multi-cloud infrastructure.
- Designed, wireframed, and prototyped for usability testing interviews by applying Design Thinking.
- Coding user interfaces based on designs from the UI/UX team.

### TECK | IS APPLICATIONS TRAINER CO-OP STUDENT

Sep 2019 – Apr 2020 | Sparwood, BC

- Designing, developing and delivering training programs and classes for Teck's ERP software.
- Designing new templates and making training materials engaging with the use of multimedia.
- Communicating with the development team on new updates and releasing newsletter in a people-friendly language.
- Helping people with tier 2 desktop support as well as application support.

## PROJECTS

### SAINTAIDAN.CA | Click to See Project

May 2021

Saint Aidan's Orthodox Church in Cranbrook, BC needed a new webpage to connect with its community and attract people.

- Worked with the Priest and Matushka to figure out the needs of the webpage
- Designed the web site in Sketch
- Coded a fully responsive Wordpress theme by merging \_S

### BODYISATEMPLE.COM | Click to See Project

January 2020

A personal food blog, showcasing the tradition of eating in the Orthodox Church.

- Configured a local Raspberry Pi 3 development server then deployed it with AWS Route53 and Lightsail
- Coded a fully responsive Wordpress theme by merging \_S and Bootstrap4
- Designed the logo and other vector graphics
